

Lion Sands

Hidden in the Sabi Sand lies a reserve offering a spectacular African safari experience with superb volume of game and quality of sightings. The Sand and the Sabi Rivers supply much-needed water to the region, creating an incredibly bio-diverse wildlife population. The reserve is also situated on a doleritic dyke, which ensures that the resulting soils are high in nutrition, producing one of the best grazing and browsing habitats in southern Africa.

Ivory Lodge

The lodge is about overriding exclusivity with complete privacy, where each suite is operated as a private villa. Neither word nor photograph can capture the sense of the pure beauty which is breathed in when opening the carved wooden doors leading into this private reclus – arguably the worlds finest suite. The Lodge comprises six generously sized privately situated villas, each with

a separate living room, heated swimming pool and an open plan en-suite bathroom with an enclosure for the outdoor shower. Breathtaking views of the Sabie River, which has flowing water all year around, can be viewed through the oversized windows of your villa or from your private viewing terrace.

River Lodge

River Lodge is the soul of Lion Sands and has been built on the banks of the Sabie River, positioned on a site with trees dating back 800 years. Facing due east, the lodge catches the sun as it rises

over the Kruger National Park. Hosted by a family of staff that make it feel like home away from home, the lodge is about spirit, warmth and nature. Here you are invited to relax and experience African hospitality at its finest. The rooms at River Lodge offer respite and protection from the Lowveld heat. There are 18 luxurious thatched bedrooms with en-suite bathroom, outdoor & inside shower & wooden viewing deck.

Lion Sands is a world class luxury safari experience with a complete commitment to

ensuring a pure balance between the preservation of this pristine "bushveld" (wilderness area), allowing access for guests to observe some of Africa's greatest mammals in their natural habitat while ensuring the benefits are shared with local communities. Lion Sands is the only reserve in the Sabi Sand which employs a full time ecologist, who is responsible for ensuring the preservation of the land for another four generations to come.

Come to Lion Sands, spend a little time with us, man and animal, and you will experience a feeling of belonging and at the same time a sense of freedom that comes from those who believe in sharing instead of possessing.
