

Phinda Zuka Lodge & The Homestead

Phinda Zuka Lodge

African hospitality means treating each guest as though your house were his own. At the sole-use Phinda Zuka Lodge we have taken this concept a step further, giving you your own private holiday home in Africa! With four bush cottages and a team of welcoming staff completely at your disposal, feel free to create your own African experience.

Everything you need is right within reach - your personal game ranger and game drive vehicle, an interactive kitchen with a dedicated chef, a butler to see to your daily needs, a comfortable library with Internet access and TV for the children, a sitting room with a fireplace for evening chats, your own swimming pool and even a private watering hole for your own exclusive wildlife encounters. With no set timetable or routine, savor the wonders of the bush at your own pace and leisure.

The Homestead

Savor the luxury of Africa's wide open spaces with the sky and savanna theme of The Homestead at &Beyond Phinda. Breathtakingly stylish and sophisticated yet refreshingly simple, The Homestead provides the ideal venue to reconnect with friends and family. Inviting rooms designed around retro trinkets, Zulu crafts and sleek, contemporary touches reinforce the impression that this private safari villa is designed for comfort and ease.

Generous courtyards, ponds and living areas that open up to the landscape beyond embrace the surrounding bush, inviting it into the spacious interiors of The Homestead. Large sliding windows give a sense of space and light, and each ample room is dominated by breathtaking vistas of Africa. Beds are positioned to face the waking bush, so game viewing begins the second you open your eyes. There's no need to jump out of bed early either - with a dedicated game ranger and tracker, as well as a private game drive vehicle, you set your own game drive times!
