

Chaminuka Lodge

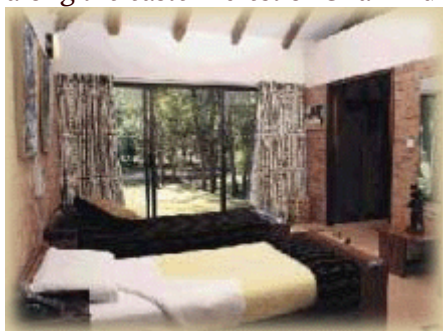

There is a hill, in the country of Zambia where each morning the sun stretches her warm fingers across the infinitely still landscape, gliding the mist bathed waters of the lake, as the chorus of Africa's birds begin to rise like sparks from the campfire. Chaminuka greets her dawn.

Chaminuka Nature Reserve is a unique African experience. Twenty-two years ago it was established as a private retreat by a family who lost their heart to the ancient majesty of Zambia and this place, Chaminuka, where the views spread themselves beneath the paths of the mighty, peaceful beasts of earth and sky.

Today this luxurious nineteen-suite lodge welcomes discerning travelers from around the world, who seek excellence and style and an extraordinary chance to commune with nature in all her magnificence.

Set in the heart of pristine wild landscape, the largest private nature reserve in Zambia, the lodge of Chaminuka commands spectacular views over Chitoka Lake where the full moon gazes at her own reflection. The lodge is inspired by the design of an African village spread along the eastern crest of Chaminuka hill; thirteen-suites each with en-suite bathrooms and air-conditioning are elegantly decorated in a fusion of contemporary and traditional African themes.

As in African villages, the lodge boasts several “insakas”, airy lounges in which guests can relax in private, enjoying the glorious panoramic views across Chaminuka’s African Eden, which melts into the wilderness beyond.

Whether enjoying a game of tennis or snooker, relax at the poolside, jacuzzi or sauna, or stroll through the grounds, exploring the renowned African sculpture and painting collection. You will be pampered by the warmest hospitality of Chaminuka’s staff, many of whom have called this beautiful haven home for more than a quarter of a century, for it is their smiles and ancient knowledge that bring alive the magic of Africa.
