

# SEYCHELLES

*Somewhere in the Indian Ocean, you'll find 115 islands scattered throughout an azure sea each with their own unique tastes, smells and visions at a crossroad of Asia and Africa. Powder-soft white sandy beaches, untouched forests, bird sanctuaries, rocky mountains, exotic hideaways, virgin fishing grounds and spectacular diving, all to satisfy any travelers fascination. Snorkel the coral reefs, trek through the verdant valleys, enjoy what you discover in this secret hideaway or simply unwind and enjoy paradise, one island at a time.*

## Praslin Sampler

*A fifteen-minute plane ride over turquoise waters brings you to the second largest island - Praslin. Visit the National Park or "Vallée de Mai" home to a prehistoric rainforest of huge trees that dominate the landscape. Here you find the famous Coco-de-Mer, Dali-esque-granite formations decorate almost every beach on the island, 8000-year-old coral reefs. Populated by fantastically-colored reef fish, make the island a mecca for snorkellers and divers with a unique beauty equaled only by the beauty of the island's spectacular, solitary beaches.*
